- Compact design: more than 20% smaller design for ease of use in small spaces
- The noise emission level is 76.4 dB(A).
- Optimal thermal stability: reliable operation, even during prolonged use
- Intelligent torque detection continuously measures the force during tightening and dynamically brakes if necessary to prevent over-torquing
- Torque accuracy: +/- 5%
- USB port for software updates
- The 'Safe Start (with shut-off option)' button ensures that the torque amplifier only operates when the user is ready
- Handle and trigger designed for optimum comfort
- Proven gear transmission for the right moment
- Powerful LED workplace lighting
- Robust steel reaction arm included as standard
- Brushless motor for best performance and low maintenance
- Button for left or right rotation
- Includes 2 batteries (CTB185) and charger (CTCEU131A) Torque range: 160 - 800 Nm
