- Large horizontal display for excellent viewing with comfortable button and dial operation
- Bluetooth® remote display allows for one-tech testing, such as brake lights (mobile device sold separately)
- Stores customer information and test results, with the ability to share via email, text or social media (mobile device sold separately)
- CAT-III 1,000 V/CAT-IV 600 V hybrid safety rated
- Convenient test lead storage wrap with retention strap
- Built-in tilt stand and optional strap hanger (EEDMMAGSTRAP) for easy viewing
- REC: Record mode stores minimum, maximum and average readings over a measurement period

- RANGE: Manually select range or allow auto-ranging
- PEAK-H (Peak Hold): Capture signal spikes as fast as one millisecond to diagnose intermittent events
- COMP (Compare): Activates the function to compare your reading against a known standard
- REL (Relative Mode): Factor out lead resistance for improved low ohm measurements or compare readings to a known standard—can also be used for differential measurements
- EDIT: Use in conjunction with the COMP and arrow buttons to set the standard value for comparing readings
- HOLD: Lock the reading on the display for hard-to-read locations or future reference
- LoZ: Filters out stray voltage or noise when wires are in close proximity like wiring harnesses
