- By utilising controlled hydraulic force, the risk of damage to surrounding components such as control arms and steering knuckles is minimised
- The tool enables removal and installation directly on the vehicle, saving time and eliminating the need to dismantle entire assemblies unnecessarily
- The result is a more efficient workflow with greater precision and improved safety in the workshop
- The set is used in conjunction with the C-clamp W1090-55-C. Can be combined with Universal Set W0100003 for extended applications
- The robust construction is designed for high pressing forces and frequent use in professional workshop environments
- The pressure bar W0100001-630 features a clearly marked groove indicating the minimum screw-in depth for safe operation
- Contains the following components:
 - Press sleeve Ø 72 mm
 - 8. W0100001-608
 - Press sleeve Ø 79 mm
 - 9. W0100001-630
 - Adjustable pressure rod 122 mm M24
 - 10. W0100001-631
 - Pressing cover Ø 47.6 mm
 - 11. W0100001-632
 - Pressing cap ball joint Ø 34
 - 12. W0100001-633
 - Pressing cap ball joint Ø 40.5
 - 13. W0100001-634
 - Mounting sleeve
